

Pre-conference CBI on IPSE State and Regional Alliances
Tuesday, October 18, 2022
9am-4pm

The Think College Inclusive Higher Education Network, in partnership with the State of the Art Conference, will host a pre-conference capacity building institute (CBI) on Tuesday October 18th about the development and expansion of state and regional alliances. Those interested in creating, building, or strengthening their state alliances as well as those interested in being involved in future regional alliances are invited to join us!

Susanna Miller-Raines (left), Program Manager for the Think College Network, will be leading the CBI along with Project Coordinator, Danie Roberts-Dahm, and representatives from the Southeast Postsecondary Education Alliance (SEPSEA) and the Midwest Post-secondary Education Alliance (MIPSA). The CBI will give individuals and teams time to hear from experienced state and regional alliance leaders and then roll up their sleeves to do some work alongside peers. The morning session will focus on state alliance support and development. The afternoon session will focus on regional alliance leadership structures and offer planning time for participants interested in building future regional alliances. The Think College Network will be sharing information on future funding opportunities related to regional alliance formation at this event. Breakfast and lunch will be provided.
