TIPS FOR A GREAT PRESENTATION

- Think through how attendees will experience, understand, and engage with your presentation. Consider practicing on a small group to get their feedback.
- Build in opportunities for engagement and interaction.
- Consider sharing challenges and successes you have experienced in your work.
- Narrow in on what it is that you want attendees to learn from your presentation. Think about the lessons, messages, or tools you want them to come away with.
- Try to make your session as interactive as possible and encourage participation.
